

<b>Air sampler:</b>	
on request	<b>Air sampler AS 730</b> with timer Air flow rate with filter of cellulose D=200mm: ca. 40m <sup>3</sup> /h 1-ph., 0.45 kW Connection: Entry and exit: male thread G 1½" Excl. filter holder
115524	<b>Air sampler AS 730 XL</b> with timer Air flow rate with filter of cellulose D=200mm: ca. 100m <sup>3</sup> /h 1-ph., 1.50 kW Connection: Entry and exit: male thread G 1½" Excl. filter holder
115959	<b>Air sampler AS 730 XL</b> with timer and volume preselection Air flow rate with filter of cellulose D=200mm: ca. 100m <sup>3</sup> /h 1-ph., 1.50 kW Connection: Entry and exit: male thread G 1½" Excl. filter holder
115965	<b>Air sampler AS 730 XL</b> with timer and frequency converter Air flow rate with filter of cellulose D=200mm: ca. 100m <sup>3</sup> /h 3-ph., 1.50 kW Connection: Entry and exit: male thread G 1½" Excl. filter holder
<b>Accessories:</b>	
112419	Filter holder for round papers D=105 mm, excl. thread ring
101099	Thread ring, suitable to filter holder 112419
111268	Filter holder for round papers =200 mm (filter holder no. 112419 needed for base)
116125	Collecting cover for simultaneously sampling (4x) with closure cap (filter holder no. 111268 needed for base)
115837	Set of 1 hose (L=10m, D=100mm) with one open end (Screw in part no. 115327 needed for bases)
115838	Set of 1 hose (L=10m, D=100mm) (Collecting cover no. 116125 needed for bases)
115327	Screw-in part AG 1 ½" AG 2 ¼" for connection with filter holder 105 mm
115834	Screw-in part IG 1 ½" AG 2 ¼" for connection with hose 115838
103481	Anemometer for test and adjustment of the air flow rate. (Suitable to thread ring no. 101099).
115933	Foldable table 450x400mm as storage surface with 200 kg load capacity
<b>Options:</b>	
115431	Counter of time of operation (instead of timer).
