

Protective suit WEGA

Lightweight non-ventilated 1-piece protective suit to protect against splash water, dripping wetness and weakly aggressive cleaning agents. The circumferential cord in the hood and the high closing zipper ensure very good enclosure of the respirator mask. All seams are welded waterproof.

This coverall has neither gloves nor booties, so that your own protective equipment adapted to the respective application can be used.

- to be worn with or without breathing mask.
- hood with integrated cord.
- high-closing zip, covered on full length.
- comfortable shape with integrated elastic in waist.
- sleeves and legs with reinforced hem.
- on request: with welded gloves available.
- material: Polyvinylchloride (PVC), color: yellow.
- packing unit: 24 pcs. per carton.

The working apron is a personal protection equipment (PPE) according to Regulation (EU) 2016/425 (classification: category I).
