Port for gloves

The port for gloves will be mounted on smooth walls (of glove boxes e.g.) and serves for the tight attachment of gloves or waste bags. The external groove system allows an easy and contamination-free exchange of gloves or bags.

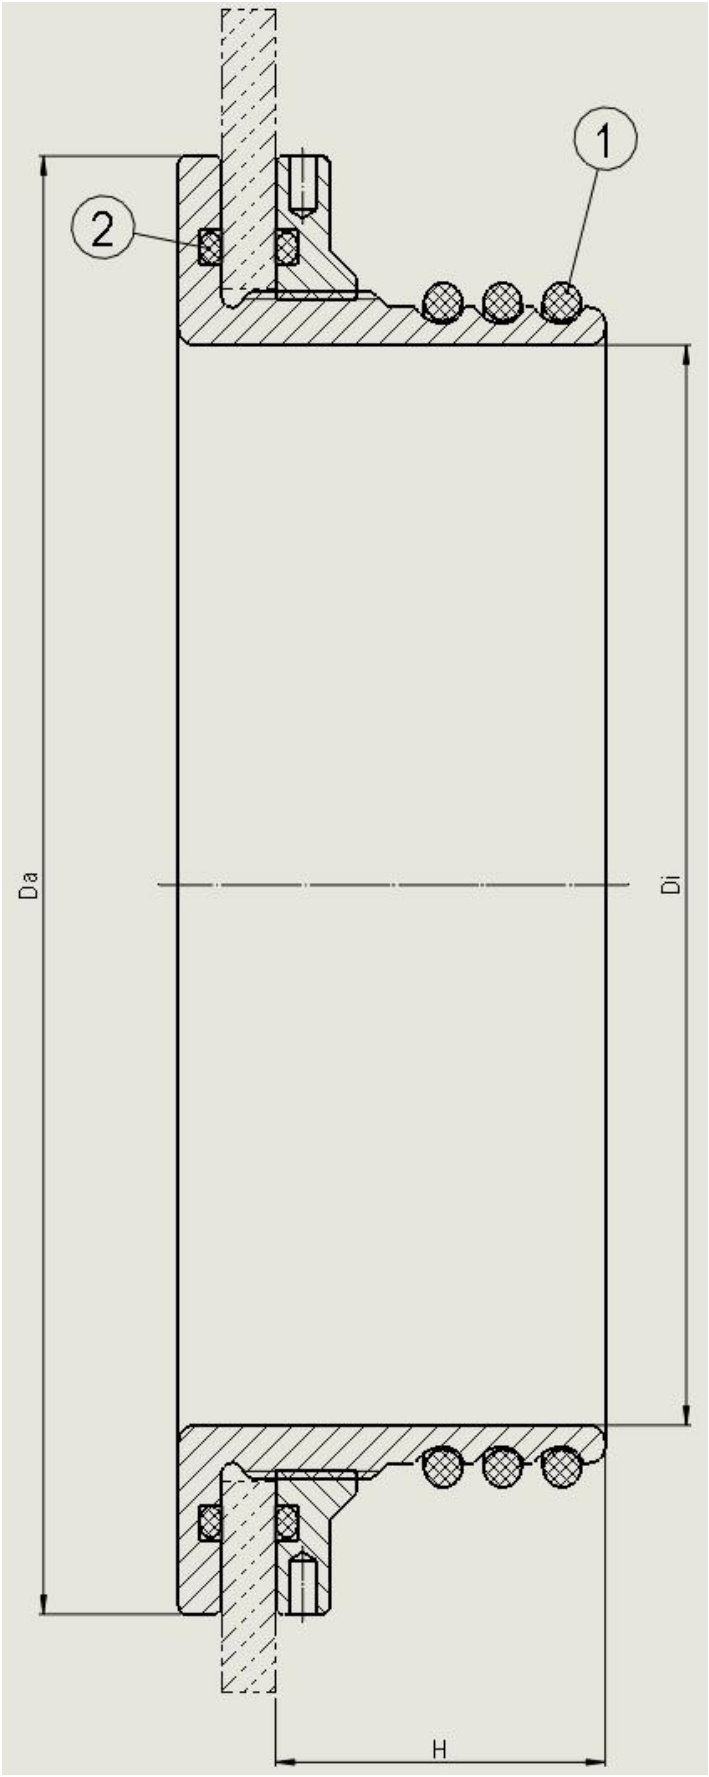

- existing of port and counter ring
- approved external 3-groove system, incl. tightening rings
- allowing a contamination-free exchange of gloves or outlet bags
- considering a small installation depth
- available in suitable sizes for standard gloves and waste bags up to 500 mm diameter
- available in PVC, PMMA (clear) and stainless steel
- available in screwing, glueing and welding versions
- the screwing version comes with two additional sealing rings in the flanges
- available for any wall thicknesses (in steps of 10 mm)
